SIT313 - Project 1
Student Name: John Bulauan
Student ID: 216226648
Application Name: Js Clock

LICENSES

This project is a previous project from a previous subject, SIT207 Android programming that I had completed one year ago. Thus, some code has been replicated as we are allowed to re use a project from the past for the first assignment.

Intent Code
This code has been referenced from the Xamarin developer website here:
https://developer.xamarin.com/api/member/Android.Content.Intent.PutExtra/p/
System.String/Android.OS.Bundle/
https://developer.xamarin.com/api/member/Android.Content.Intent.GetBundleExtra/
p/System.String/

Assets (EXCLUDING CLOCK ASSET)
All assets have been created by John Bulauan. I have used Adobe Photoshop to create these assets.

Assets – Clock
This image has been taken from the tredhunter website. I have cropped the clock in Adobe Photoshop and have made it into my own png file. ALL CREDIT GOES TO TREDHUNTER.COM FOR THE CLOCK IMAGE.
